EXPERIENCE

Software Engineer Intern @ Rithm Student Information Systems

MAR 2022 - APR 2022 // Remote

- Designed and implemented **Fernet**-encrypted data models with **Django** to store and visualize bootcamp graduate outcomes
- Integrated breadcrumb functionality to student-accessible views and corresponding **HTML** templates
- Conducted daily standups via Agile development with teammates during 1-week sprints
- Wrote tests to maintain 100% test coverage and successfully submitted PRs that were merged into production codebase
- Provided documentation for MVP projects to clearly communicate progress for future engineers

Lead Physical Therapy Aide @ Ocean Beach Physical Therapy

FEB 2021 - NOV 2021 // San Francisco, CA

OTHER POSITIONS HELD: *Physical Therapy Aide, Physical Therapy Intern*

- Trained and supervised 5 aides and 8 interns in completing administrative duties, clinical exercises, and modalities
- Maintained clinic technology by fixing broken hardware and installing new equipment
- Expanded patient population demographics by providing translations for Cantonese speakers

PROJECTS

Warbler - a Twitter clone built using **Python**, **Flask**, and **PostgreSQL**.

[Demo](#) | [Github](#)

- Added authentication/authorization to RESTful API routes
- Protected passwords in database with **Bcrypt** hashing function
- Database calls managed through Python ORM **SQLAlchemy**
- Added documentation and automated testing via **unittest**

Jobly - a job application site built using **React** on the frontend. Backend is built with **Express** and **PostgreSQL**. [Demo](#) | [Github](#)

- Added middleware for JWT authentication and user authorization
- Built Jobly backend with Test-Driven Development
- Preserved user session by caching credentials in local storage
- Added documentation and automated testing via **Jest**
